**EXTRA**

Enormously Large  
**APPLE TREES**

**SPECIAL**

**EIGHT YEARS OLD — EVERY TREE BEARING AGE**

**9 TO 12 FEET TALL — 2 INCH CALIPER**

**SMOOTH TRUNKS — WELL BRANCHED TOPS — GOOD ROOTS**

Every tree has been sprayed, has received the same care and cultivation as trees in a young orchard—take our word for it they are fine. For Fall planting we offer a limited quantity of these extra large matured Apple Trees. The assortment of varieties is somewhat limited but each one of the varieties offered is one of the best in its class. Make your selection from the following:

BALDWIN  
McINTOSH  
KING

CORTLAND  
NORTHERN SPY  
MEDINA

JUL  
STAYMEN'S WINESAP  
EARLY McINTOSH  
EARLY SPY

Personally we regard Fall planting as preferable to Spring for a number of reasons, the principle one being that trees of this size set this Fall become established during the Winter, gain a very early Spring start, hence make good growth the first season. If you have lost any trees from the effects of the extreme cold weather during the past few winters, these trees would make excellent replacements. If upon unpacking you do not find them satisfactory in height, caliper, smoothness, root system or any other cause, merely repack and return to us via freight collect and we will immediately refund your money plus the transportation charges you have paid. Our stock of trees is not large, hence we suggest ordering immediately for shipment at the proper time for Fall planting. Several years ago we sold similar trees at \$10.00 each but owing to present business conditions we are disposing of this lot of trees while the stock lasts at the following low prices:

**\$3.75 each**

**\$35.00 per 10**

**\$300.00 per 100**

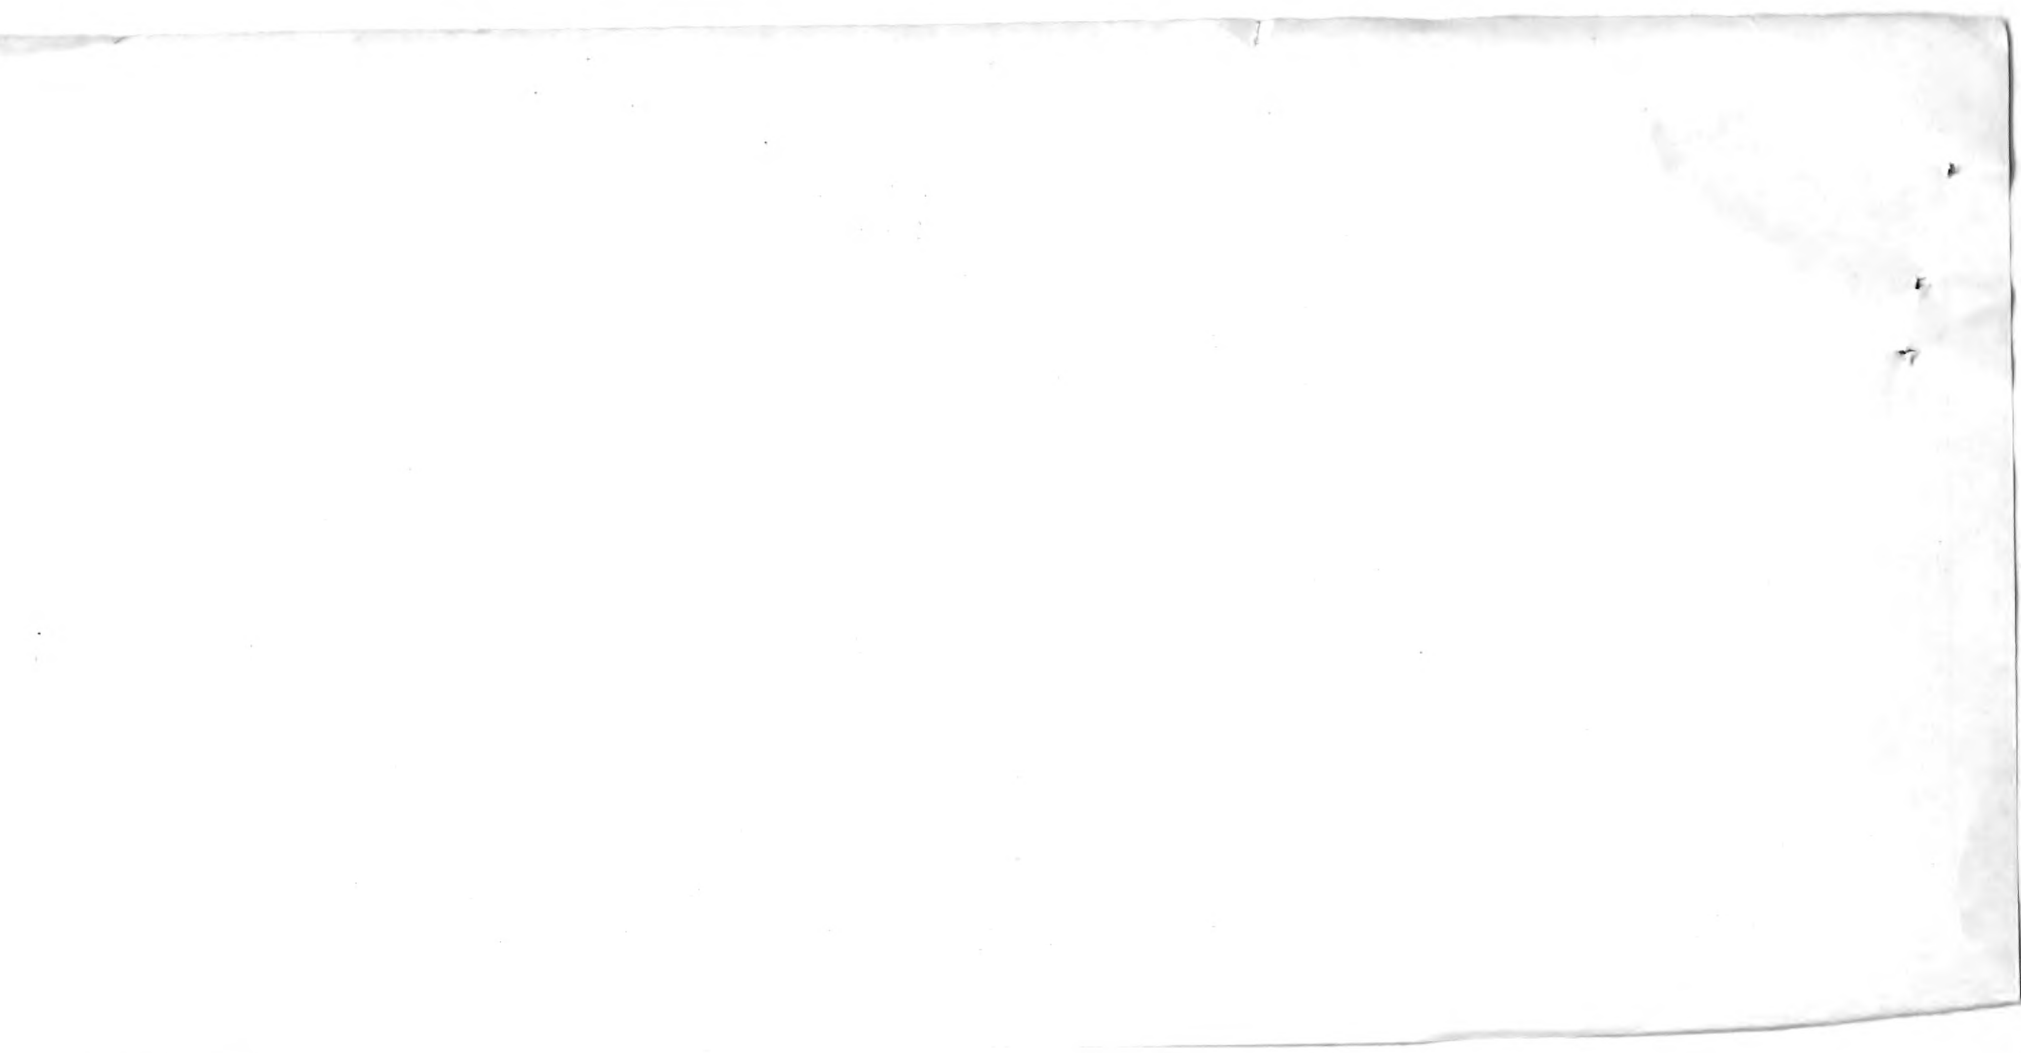

If you have any doubts about these trees being actually worth from \$5.00 to \$10.00 each, come and see them.

U. S. Department of Agriculture

Dear Sir:

I have just this minute returned from my bi-weekly trip of inspection around the nursery and today I saw something. I saw some of the most beautiful extra old, extra large Fruit Trees that we have ever grown. Our superintendent stated these trees are fully 4 years old, they grade 7 to 9 feet tall and to show me how beautifully rooted these trees were he dug one out and the root system on them is wonderful. They are also handsomely branched, in fact these trees are worth \$2.00 each of anyone's money considering that a small 2 year old Fruit Tree sells around \$1.00 each. We are not going to charge you \$2.00 each for these trees this month but we will sell a limited quantity at the following prices:

\$1.50 each

\$13.50 per 10

\$125.00 per 100

RED ASTRACHAN  
TWENTY OUNCE

BALDWIN

BURBANK(cherry red)

BARTLETT ANGOULEME

PEAR TREES  
CLAPP'S FAVORITE

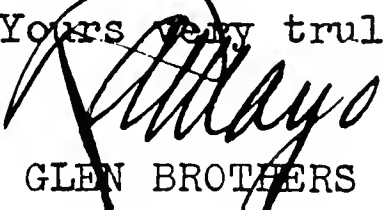

ANJOU(Buerre d'Anjou)

DIKEMAN(black)  
LAMBERT(purplish red)

CHERRY TREES  
GOV.WOOD(light yellow)

BLACK TARTARIAN  
ROYAL ANN(pale yellow, spotted red)

Order immediately for Fall planting. Personally we regard Fall planting as preferable to Spring for various reasons, the principal one being that trees and plants set in the Fall become established during the winter, gain a very early spring start, hence make good growth the first season. So enthusiastic am I about these trees that I saw today and which I now offer you at so low a price I am perfectly willing to sell you these trees with the distinct understanding if not satisfactory upon arrival they may be returned and your money will be immediately refunded plus transportation charges both ways. Better grab some of these trees while you can. Order today.

Yours very truly,  
  
Treasurer

brilliant all summer. Fragrant, hardy and vigorous.  
CRUSADER. Rich velvety crimson.  
ETOILE DE HOLLANDE. Brilliant red blooms, magnificent size.  
MME. BUTTERFLY. Pale pink and gold.

LILACS

The delightful and fragrant blooms of Lilacs probably attract more thousands of people than any other flower.

Right here in the Flower City of Rochester the famous HIGHLAND PARK COLLECTION OF LILACS attracts many thousands of people each Spring during the height of the blooming period. In fact there is one day set aside called "LILAC DAY", people coming from far and near on that day to see this wonderful display. Lilacs are indispensable in the landscape, planted as individual specimens about the lawn or in groups they also make an extremely attractive hedge.

PLANT MORE LILACS

We grow 30 varieties here at "GLENWOOD" and from this magnificent collection we have selected the six varieties described below. We offer for Fall planting one each of these six varieties - SIX IN ALL FOR \$3.75.

GEN. PERSHING. Bluish-lavender  
PRES. ROOSEVELT. Bright purplish-red  
PRINCESS ALEXANDRIA. White flowers  
VIVIAND MOREL. Clear lilac flowers having white center  
PRES. LINCOLN. Gorgeous, big clusters of almost pure blue-violet flowers  
CONGO. Beautiful deep wine-red

All plants well rooted, well branched, 2 years old from bud and grading 2 to 3 feet. WHAT A COLLECTION FOR THE MONEY.

GLEN BROTHERS INC., GLENWOOD NURSERY -1762-1772 Main St. ROCHESTER,N.Y.

THE CHINESE ELM  
(Siberian Elm - Ulmus Pumila)

If you want quick shade - it's THE TREE to plant. It's the fastest growing tree we know of - having none of the undesirable root characteristics of the Poplar - IT'S STRICTLY AN ELM.

IT IS AS GRACEFUL AS A CUT LEAVED BIRCH AND AS HARDY AS AN OAK

From cold North Dakota Mr. Warren Mathews, superintendent of the United States Department of Agriculture at Ardmore says "The Chinese Elm has been one of our hardiest and fastest growing trees."

In Massachusetts, the late Dr. E.H. Wilson of Arnold Arboretum says in the June 1st. issue, 1929 of Horticulture, "Growing there is a tree raised from seed collected from Pekin on May 4, 1910. It is now fully 35 feet tall. This tree has grown faster than any other tree in the Arboretum and so far appears free from disease and does not harbor pests."

GOOD FOR STREET PLANTING, WINDBREAKS, SCREENS OR AS INDIVIDUAL  
SPECIMENS ABOUT THE LAWN

It thrives everywhere from bleak Saskatchewan to torrid Arizona. Mrs. Baas Farquhar, 1136 Calhoun Ave., Bronx, N.Y. writes "There is not a tree to compare with the Chinese Elm for swift growth, beauty of leaf, shade and marvelous to look at. I think it is one of God's prettiest trees. You promised it would grow 20 feet in 4 years. It grew 26 feet in 4 years and what a beauty it is."

Mr. C.W. Sievert, 12626 Ann St. Blue Island, Ill., writes "I am well pleased with the Chinese Elm purchased about three years ago. It is growing fast and developing good shape."

Mr. Elmer D. Brooks, 17314 Milburn Ave., Cleveland, Ohio writes "The Chinese Elm I got from you 3 years ago is the largest tree on our street although many trees were planted years ago."

Mrs. J.L. McCracken, Smithfield, Penna. writes "We have two Chinese Elms which we bought of you several years ago. They have grown until they are now beautiful big trees and we are quite proud of them."

Mrs. J.W. Baillie, 16558 Kentucky Ave., Detroit, Mich. writes "Two Chinese Elms purchased from you, one in 1930 and the other in 1931 are large trees and the wonder of the neighborhood. This is surely the tree to plant if you want shade in your own lifetime."

Mrs. William R. Teel, 5580 Washington Boulevard, Indianapolis, Ind. writes, "I wish to add a word about a Chinese Elm purchased at your nursery five years ago. The tree is 40 feet high, perfect in shape, clean and beautiful."

We could go on and on and on quoting from letters received from our customers in every state in the Union.

PLANT THEM THIS FALL. ORDER YOUR CHINESE ELMS IMMEDIATELY FROM US

Size	Each	Per 10	Per 100
4-5 ft.	\$1.00	\$ 8.75	\$ 75.00

A SUPERB EVERGREEN COLLECTION

Evergreens are beautiful both Summer and Winter. Would you spend \$10.00 for six beautiful specimens, fresh dug and shipped to you with roots balled in the earth they grow in? For \$10.00 we will send you one plant each of the following varieties:

- BLACK HILLS SPRUCE 3-4 ft. Shapely, compact tree. Densely closed with short silvery green needles.
- SIBERIAN ARBORVITAE 2-3 ft. Extremely hardy, broad pyramidal in shape, stout branches and bluish-green foliage.
- BALSAM FIR (or Balm of Gilead) 2-3 ft. A rapid growing Evergreen tree with dark green spicy foliage; very hardy.
- RETINOSPORA FILIFERA 2-3 ft. The branches are thread-like and droop gracefully; foliage bright green. Extremely attractive planted with other Evergreens.
- JUNIPERUS PFITZERIANA 18x18 in. Spreading, graceful habit with silvery green color. Distinct and charming. It is indispensable and on account of its dwarf form should be planted in front of taller Evergreens.
- CANADIAN HEMLOCK. 2-3 ft. Beautiful, free drooping trees with dark green needles, the rich color being retained all Winter.

For all around beauty and hardiness you cannot beat these six varieties and the price is only \$10.00 for the entire collection.

BARBERRY THUNBERGI  
(THE IDEAL HEDGE PLANT)  
Beautiful in SUMMER, FALL, WINTER and SPRING

There is nothing quite so effective for the boundaries of a farm or property division as a Hedge, particularly a Barberry Hedge. It doesn't decay nor does it require paint but grows more beautiful and effective each year. The first cost of installing a hedge is its only cost so that from an economical standpoint it is less expensive than a fence. When a low hedge is wanted we recommend Barberry Thunbergi, a splendid species from Japan, of round drooping habit of growth, spoon-shaped leaves of fine brilliant green in Summer which takes on in early Autumn most brilliant colors and is loaded down with scarlet-crimson berries which hang on all Winter.

We offer beautiful heavy plants, densely branched, fully 2 years old grading 12 to 18 inches, grown for immediate effect:

PRICE:           \$12.00 per 100           - - -           Plant them one foot apart

BABYLONICA WEEPING WILLOW

This is the common weeping willow. Makes a beautiful lacy tree. Attractive for planting beside creeks, ponds, pools and other waterside planting. It has long whiplike branches, weeping to the ground. Babylonica Willow is without doubt one of the most remarkable of trees. The leaves are narrow, tapering to a long point and bright green. The bark is particularly handsome in Winter. We offer this variety for Fall planting in a limited quantity only in the following sizes and prices:

6-8 ft.	\$1.75 each	\$15.00 per 10
8-10 ft.	2.75 each	25.00 per 10

GLEN BROTHERS INC. GLENWOOD NURSERY -1762-1772 Main St. ROCHESTER, N.Y.

FRENCH PUSSY WILLOW  
BEAUTIFUL - UNUSUAL - WELL WORTH PLANTING

Beautiful Summer and Winter. The only outdoor shrub grown from which you can cut bouquets during the Winter months. A select and new improved type of Pussy Willow perfectly hardy anywhere in the United States. Buds and blooms very large from one to two inches long after they come out in bloom. They are fragrant and make a very dainty yellowish pink and silvery bouquet. The branches may be cut in December, January and February placed indoors in a vase of water and they will soon burst open into bloom. They may be planted on home grounds everywhere. They can be used as a background like any tall shrub as the Lilac or Snowball. They can be used as tall hedges or screens. The most interesting plant for the home grounds.

We offer for Fall planting branched plants grading 3 to 4 ft. in height at 75¢ each; \$6.50 per 10; \$60.00 per 100.

PEONIES - Planted this Fall will positively bloom next Spring. THREE FOR \$1.00. Most noble and beautiful of all hardy flowers. Rival the rose in beauty of form and exquisite coloring. You can't excel these. Look who's here:

SARAH BERNHARDT. Bright flesh pink  
UMBELLATA ROSEA. Bright violet pink  
MONS MARTIN CAHUZAC. Dark purple  
EUGENIE VERDIER. Yellow and salmon  
ANTOINE PAITEAU. Dark purple  
LONGFELLOW. Crimson cherry tone  
LOUIS VAN HOUTTE. Dark crimson  
SUZETTE. Bright light red  
FELIX CROUSE. Clear rich red  
MESSONIER. Brilliant crimson

FOUSTI. Light pink  
RUBRA SUPERBA. Deep crimson  
EDULIS SUPERBA. Light pink  
PURPUREA. Dark purple  
SOLANGE. Reddish brown  
CANARI. Blush yellow  
FESTIVA. White  
VICTORIA. White  
COURONNE DE OR. White  
HUMEI. Cherry pink

Ours are strong divisions with three to five eyes guaranteed. You may select any of the varieties described above at the price of THREE FOR \$1.00 or one each of these twenty varieties \$6.00.

GRAPE VINES - FULLY 4 YEARS OLD  
PLANT BIG BUSTER SIZE GRAPE PLANTS FOR EATING FRESH  
OR DELICIOUS GRAPE JUICE

Nothing quite so sure to grow. Nothing quite so sure to bear. Nothing quite so sure to please every taste.

EXTRA HEAVY 4 YEAR OLD VINES - EVERY PLANT IS  
A BEARING PLANT

Planted this Fall should produce next Autumn  
CONCORD (black) Large and handsome, very hardy, productive.  
IVES (black) Bunches extremely large. Berries large, tender, juicy.  
LUCILE (red) Bunches very large and compact; berries large, pulp sweet.  
DELAWARE (red) Bunches small and compact; light red, sweet.  
CATAWBA (red) Bunches large and loose; berries large of coppery red.  
CAMPBELL'S EARLY (black) Berries large, black with light purple bloom.  
BRIGHTON (red) Rich, sweet and of the best quality.  
NIAGARA (white) Berries large, roundish, uniform, pale green, changing to pale yellow.

PRICES FOR THESE SUPERIOR SIZE  
SUPER-AGE PLANTS

75¢ each - \$6.50 per 12 (over)

GLEN BROTHERS INC., GLENWOOD NURSERY -1762-1772 Main St. ROCHESTER,N.Y.

LUSCIOUS TASTING ASPARAGUS  
THE KIND THAT MELTS IN YOUR MOUTH

We offer some extra large,extra strong,extra old plants of Pedigreed Mary Washington,the only variety we regard as worth planting.

The best high producing,tender,green Asparagus for market and home use.  
100 of these whopping big 3 year old plants \$7.00; 500 plants for \$30.00;  
1000 plants for \$55.00

Three years ago we planted the Pedigreed seed on some of the richest land in our nursery - for three years we have cared and cultivated and even cut large tender stalks of delicious Asparagus for our own tables -

THESE ARE THE PLANTS WE OFFER YOU

FOR A QUICK CUTTING BED - Plant these Big Buster,fully 3 year old,extra selected roots.

ORDER NOW under this guarantee: If upon receipt of shipment you find that the plants are not the finest and largest 3 year Asparagus roots you have ever seen,wrap them up and return to us and we will refund your money without question,quibble or controversy.

Growing your own Asparagus is as simple as 2 plus 2.  
For success,the soil in which Asparagus roots are planted should be well drained,and while it does not need to be necessarily rich,always remember the richer the better. Set the roots in trenches six to ten inches deep and cover with only a few inches of soil. In late Fall fill the trenches with well rotted stable manure or leaves. In the Spring as soon as all danger of freezing is over remove this litter and as the shoots appear cover with more dirt and continue to do this until the entire trench is filled with good soil. A heavy mulch of coarse manure should be given the following Fall. Be sure and cut the tips off before the seeds begin to ripen.

DOLGO CRAB

Red,a rich red - red all over. Dolgo jells perfectly. It is excellent for canning. Bears early and abundantly.Extremely hardy.Apple trees are commonly planted back in the garden or orchard. You can and should put Dolgo on the lawn as it is beautiful as an ornamental,giving a happy combination of splendid qualities in fruit with a shapely tree,beautiful in flowers and in fruit. The fiery red clusters are a handsome sight. 2 year 5 to 6 ft. \$1.00 each; \$9.00 per 10.

SHRUBS

DO YOU NEED ANY SHRUBS THIS FALL?

We have heard the slogan "It's not a home 'till it's planted" and we might add to that "with shrubs". Shrubs give you beautiful foliage,delightful flowers and everlasting beauty.

We have selected eight shrubs at GLENWOOD NURSERY that we use in practically all of our landscape work.These shrubs are well branched,well rooted and will give immediate effect. HERE THEY ARE:

FLOWERING QUINCE	size 2-3 ft	DEUTZIA PRIDE OF ROCHESTER	size 3-4 ft
HYDRANGEA P G	2-3 ft	SWEET SYRINGA	3-4 ft
BEAUTY BUSH	2-3 ft	CORNUS SIBERICA	2-3 ft
SPIREA VAN HOUTTE	2-3 ft	FORSYTHIA FORTUNEI	2-3 ft

We will send you all eight in the sizes specified for \$2.45.

PLANT THEM THIS FALL.
